

HEALTHY ANIMALS FOR HEALTHY HOUSEHOLDS!

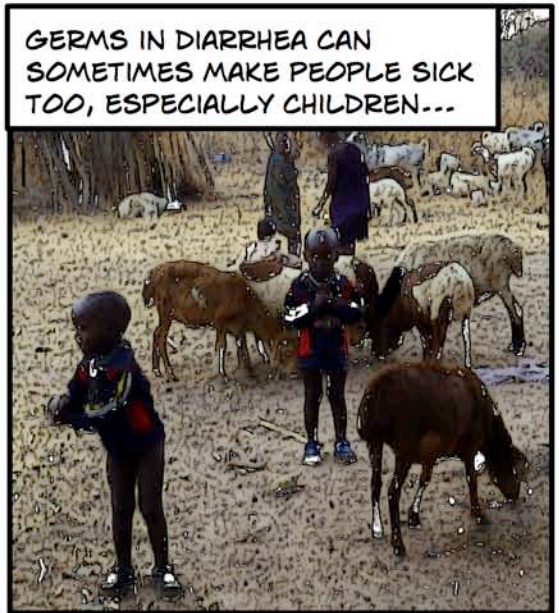

ANIMALS ARE VERY SPECIAL...

BUT SOMETIMES THEY CAN CARRY GERMS AND OTHER DISEASES.

ANIMALS WITH DIARRHEA CAN BE ESPECIALLY DANGEROUS, BECAUSE SOME DISEASES AND GERMS ARE IN MANURE.

GERMS IN DIARRHEA CAN SOMETIMES MAKE PEOPLE SICK TOO, ESPECIALLY CHILDREN...

WHEN WORKING WITH ANIMALS, ESPECIALLY SICK ANIMALS, IT IS IMPORTANT TO WASH YOUR HANDS WITH SOAP AND WATER...

IT IS ALSO IMPORTANT TO SEPARATE SICK ANIMALS FROM OTHER ANIMALS AND FROM THE HOUSEHOLD, SO GERMS AND DISEASES STAY AWAY FROM OTHERS.

MANAGING MANURE
CAN ALSO HELP
PREVENT GERMS
AND DISEASES
FROM SPREADING...

... AND MOVING
OR STORING
MANURE AWAY
FROM ANIMALS
CAN HELP KEEP
THEM SAFE FROM
SOME GERMS.

FINALLY,
KEEPING SICK
ANIMALS AWAY
FROM CHILDREN
AND OTHERS
AND OUT OF THE
HOUSEHOLD
WILL HELP KEEP
YOUR FAMILY
SAFE.
